5 O'CLOCK EDITION.

At the time of the Seattle holocaust that city had subscribed for the relief of the Johnstown sufferers the sum of \$535. The day following the fire, the committee having the money in hand, put the question to a vote whether the money should be sent or retained for the relief of home sufferers, and it was about unanimously decided to send it.

In point of comparison, at the time of the fire in Seattle and of the flood in Pennsylvania the C-mastock was suffering from a disaster that had been creeping on insidiously for several months, cleaning out pocket books as clean as a whistle every day, and still the cry was "more mud." This is nothing fanciful. It is but too real. Our business men, owing to the disaster above referred to, are pinched tighter than many a man they have relieved far away. Miners cannot pay their bills at the drug store, clothing store, butcher and grocer. His pockets have been cleaned as though a flood had been washed through them for a month, and as though his house was on fire all the time. He has been pouring his wages in the insatiable maw of the stock market as fast as he could get them to keep up his margin. His wife has been working the bedstead, furniture and blankets, and if the downward course of the market is not soon arrested they will both dump the household in—Enterprise.

What object the Enterprise has in publishing the above, unless it is to further bear the market, the GAZETTE does not pretend to know, or care, for that matter, but it contains so much truth that it is reproduced as it proves the stand taken by the GAZETTE to be correct.

We claim that the "mining industry" of Nevada has been worked systematically for a few men in San Francisco, men who do not pay back a single dollar of their ill-gotten gains into the State, but spend it elsewhere for the improvement of other places.

The Comstock shares have been manipulated in Pine street, San Francisco, and the managers have been collecting their titling from the people of this State until it is nearly bankrupt. They have had every protection thrown around them that our State legislators could conceive of in the way of laws to enable them to carry out their plans successfully. They have been favored by way of tax all more than any other class of property-holders, and have been rolling in wealth and luxury at the expense of the other tax-payers of this State, until now we hardly have money enough to maintain a State Government. How much longer such a state of affairs will exist remains to be seen, but unless our laws are changed it will not be long before the last plum will have been picked by the mining companies. There are people enough in the State to correct the evil, if they will but do it. The cream has been all worked up in San Francisco, New York and Paris for so many years that our people seem to be satisfied with skim milk and take it as kindly as a dairy calf. Our politics have been manipulated by half a dozen men in San Francisco, until the tax-payers wait seemingly for their instructions from that city before they dare make a move. But if the farmers and stockmen throughout the State would but assert their rights, it would not be a great while before our State would be prosperous and on the high road to her proper place among other States, and still the "mining industry" would not be crippled. Stop that drain upon our people, and we would soon be well-to-do.

COLONEL LYMAN BRIDGES, the civil engineer selected by the Government to make the irrigation surveys of the Truckee basin, passed through Reno Friday night. He will commence his labors in about a week. His special work is the location of reservoir sites in the mountainous lands of Nevada, which can be reclaimed by these stored waters, and the survey of the ditch or ditches that will connect the reservoirs with the plains. He is clothed with full and complete power in the premises, and will locate reservoirs, ditches and lands regardless of the interests of individuals, cliques or corporations, and with an eye single to the highest development of the country. He states unhesitatingly that there is a grand future in store for this region, because of the development of its storage facilities.

At last steps are being taken to reclaim our arid lands, and the GAZETTE predicts a bright future for this section of the country. It will be some time before the country will realize any benefits from Colonel Bridges' labors if we wait for Government aid, but his report will call attention to the grand advantages that we possess, and in due time we can reap our reward.

THE Inyo Independent, one of our best weekly exchanges, has entered upon its twenty-first volume. Should the resources of the Independent's field continue to improve, the time is not distant when Brother Mulholland will be warranted in publishing a daily.

Wisconsin an Average State. Were Delaware's population of 130,000 taken as the basis we should have 500 States, while Rhode Island, with her 350,000 people, would give us 210. The 1,000,000 of California would give us sixty-three, and the 1,700,000 of Wisconsin would give us thirty-eight—about equal to the average of what we now have.

Attacks but Little Attention. The Empress Eugene moves about England now, attracting very little attention. In Birmingham recently she and her companion, who is said to be the daughter of the Duke of Bassano, "an American lady," and their courier, visited a hotel and restaurant in the town and no one recognized them.

Tail Trees. A discussion as to the height of trees in the forests of Victoria, Australia, has elicited from Baron Von Mueller, the Government botanist, the statement that he saw one of a height of 525 feet. The late chief inspector of forests measured one fallen and found that it was 485 feet long.

Party Contest. No agreement between the Democrats and Republicans as to a non-partisan Constitutional Convention in New Mexico has been secured, and the battle will be fought out on party lines on July 6th.

Nearly Restricted. The conditions necessary to be complied with in obtaining a saloon license in San Mateo, Cal., almost amount to restriction. A bond and real estate recommendations are required, beside a license of \$125 per year.

Looks Like a Failure. ROBERT D. T., June 17.—At a council between the different bands of Indians yesterday afternoon it was decided to hold another council among themselves and then scatter to their homes. If this is done it will at least greatly delay action. The only Indians now prepared to sign are those present at the discussion at Rosebud, or influenced by that action, but they are in the minority. The opponents of the bill have been aided by outside support, and their united strength is formidable.

HEAVY KANSAS RAINS

A Town Washed Away and Several Lives Lost.

LEPROSY IN NOVA SCOTIA. To be Arrested for Stealing from the Wreckage.

ARREST OF MARTIN BURKE.

Who is Charged with the Murder of Dr. Cronin.

[ASSOCIATED PRESS DISPATCHES TO THE GAZETTE.]

Arrested for the Cronin Murder. WINNIPEG, June 17.—Last night the Chief of Police arrested Martin Burke, alias Delaney, wanted for complicity in the Cronin murder, as he was boarding the Eastern express. He had a ticket for Liverpool.

Chicago, June 17.—When Chief Hubbard was asked for an explanation of the arrest of Burke at Winnipeg, he said that it was a very important arrest, and would be followed by another in this city.

Winnipeg, June 17.—Burke, alias Delaney, arrested yesterday, has retained counsel and determined not to voluntarily return to the States. He denies all knowledge of or complicity in the Cronin murder, and says that he is merely making a trip to Ireland via Winnipeg. He refuses to say anything further or to see any person other than his counsel. The police are instructed by the Chicago authorities to hold him by all means, as he is a principal.

Chicago, June 17.—The police consider the capture of Martin Burke in Winnipeg the most important yet made. He has been identified as the man who hired the furniture moved from Clark street, opposite Dr. Cronin's office, to the Catholic cottage, where Cronin was killed. Burke is a hot-headed Clan-na-Gael man. He comes from Hancock, Mich., where detective Coughlin used to live. He has been under surveillance since the murder, but gave the detective the slip last Thursday. The arrest was made on a telegraphic description sent out at once. Chief Hubbard says this capture comes nearer to the actual murderer than any yet made.

A Destructive Rain Storm. St. Louis, June 17.—Additional advice about the disaster in Kansas from wind and rain storms are that Uniontown, fifteen miles west of Fort Scott, was swept away and two women and four children drowned. Uniontown was a place of 600 inhabitants in the midst of a thickly settled country. It is feared the loss of life will be heavier than reported. The wires are down for fifteen miles on the river side and nothing definite can be learned. The storm struck the western side of Bourbon county late at night, coming from the west, and where it played great havoc. At Augusta it assumed the form of a cloudburst. In Fort Scott it commenced raining very heavily, and this caused the flood, carrying away several houses. The part of Fort Scott known as "Belltown" is entirely under water, and where it played great havoc. At Augusta it assumed the form of a cloudburst. In Fort Scott it commenced raining very heavily, and this caused the flood, carrying away several houses. The part of Fort Scott known as "Belltown" is entirely under water, and where it played great havoc.

EL DORADO, KANSAS, June 17.—The upper valley of the Walnut was flooded from excessive rains, and the streams are higher than for years. On Saturday night the river came up so suddenly that a family named Graham started from home to high land, but the mother and babe were drowned, the father and one child escaping. Grain fields are flooded and much damage must result. A portion of the Missouri Pacific track was washed away and there has been no train over the Santa Fe since yesterday. It is surmised that a number of people were drowned in the lower valley. The water is receding this morning. A later rumor reports the drowning of O. Beaman.

Three Cases of Leprosy. OTTAWA, June 17.—A few weeks ago it was reported to the Department of Health that there were cases of leprosy on Cape Breton Island, N. S. Dr. Smith, the medical attendant at the leprosy lazaretto at Trocadi, N. B., was instructed to make a personal investigation. His report shows three cases—two women and one man. They have been in daily contact with their friends. They will be removed to Trocadi at once.

A Light Breeze.

CURENTOWN, June 17.—At the regatta held to-day, the yachts Barkare, Irex and Yarana were among the contestants. There was but very little wind when the boats crossed the line. The Barkare led at the start. The Irex went aground. The wind increased later.

Decided to Postpone.

LONDON, June 17.—In the House of Commons to-day William Smith, the Government leader, announced that the Government had decided to postpone further proceedings in relation to a bill to put into effect the Sugar Bounties Convention.

Assigned His Commission.

ROME, June 17.—Prince Louis Napoleon, at the request of his father, Prince Jerome, has resigned his commission in the Italian army.

Returned to Washington.

WASHINGTON, June 17.—The President and party returned to Washington this morning.

Baseball Game.

Boston, June 17.—Boston, 2; Washington, 6.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklin's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merit. S. J. Hodgkinson's Druggist.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, reduces the pain, allays all pain, cures wind colic, and is the best remedy for diarrhoea. 25 cents a bottle. 17500

A FINE DISPLAY.

What May be Seen at Mt. St. Mary's Academy.
 For the last two days the exhibition hall at Mt. St. Mary's has been the scene of a large and fine display of oil paintings and fancy work of all classes. Crowds of visitors accepted the invitation extended by the Sisters to the general public and called to examine and admire the handiwork of the busy bees at the convent.

Miss Della McLaughlin's work does her credit. Her piano cover of olive green felt is richly embroidered in each corner, while across the front appears in gold the music and words of "Home Sweet Home."

Miss Maggie Wilkinson's motto evidently is "What is worth doing is worth doing well." Her piano scarf of sea green plush worked in poppies and verbenas tells this in its neatness and beauty. Her oil paintings comprise a very pretty landscape, in which is introduced figure painting, and a large plaque on which is a cluster of wheat, marguerites and ripe strawberries. Although an amateur, her work indicates ability.

Miss Ida Spooner proves to be a rapid as well as a neat worker. Her table scarf of garnet plush and several smaller articles embroidered are very handsome. Her collection of oil paintings comprise a large rural scene in spring and companion panel pictures, one of which is a coast scene by moonlight, and is particularly attractive as a work of art. Miss Spooner may be characterized as an exact copyist.

Miss Dora Burkett is rewarded for all her hard tiresome work with a banner screen in cardinal plush. It is different from most needle work. It is admired by all. She has also four paintings in oil. Her winter scene in Montreal is noted for its artistic coloring, and certainly deserves special praise.

Miss Edith Merrill's perseverance is shown in a piano scarf in rich crimson plush, with ends designed. Roman work, done in pearl chenille. It is odd, artistic and very handsome, and shows well the care and time devoted to its completion.

Miss K. Raine completed a very pretty handkerchief case of plum colored plush, done in embroidery. This, together with her all wool shawl and toilet cushion, speak for themselves. Miss Delle Raine's toilet set and shopping bag are both useful and ornamental, and show her good taste as well as industry.

Misses Grace Blossom and May Killen of Battle Mountain have each a very creditable display in etching, silk embroidery, scrim and cross-stitch tidies.

Little Julia Conlan has a pretty felt tidy in marguerites and several neat tidies.

Miss Lulu Livingston of Carson has a pretty toilet set of four pieces, and in sapphire, blue and gold.

Miss Ada Bull's tidy shows her skill and care to advantage.

Added to the above are very many other smaller articles, such as toilet cushions, shawls, handkerchief cases, crocheted lace yokes, silk and mull aprons, and samples of real lace in silk, all of which show that the pupils have utilized their spare moments, and as a result have each something pretty and useful to take with them to their homes.

The closing exercises will take place on Wednesday evening, June 19th, and from the number of tickets already sold the hall will be filled to its capacity. The Sisters desire to state that this year they have had the hall windows arranged so that, for the comfort of all, plenty of air will be admitted.

Thatcher, Primrose & West.

An Omaha paper says: Thatcher, Primrose & West's Minstrel Company opened at Boyd's last night to an audience that filled all parts of the house. Their performance excelled any thing in that line that has ever been seen here. They call themselves the monarchs and are justly entitled to the full extent of the distinction. It is not exaggeration to assert that Thatcher, Primrose & West have practically distanced every competitor in point of improvement and excellence. They have made a surprisingly pleasing departure and gone so far into legitimate classical fields that there is hardly a vestige of what has always been termed negro minstrelsy left. Their show is the neatest, cleanest and best yet put before the public.

This excellent company will appear at McKissick's Opera House next Thursday and will give one of their fine entertainments. Secure your seats early.

Pleasant Gathering.

Last Saturday evening Harry Martin, who was one of the High School graduates of last Friday, gave all of his classmates a royal entertainment at his beautiful home on Mill street. Dancing and card-playing were the amusements of the evening, and about 11 o'clock an elegant supper was served. Mr. and Mrs. Martin were untiring in their efforts to make everybody happy.

New Time Card.

Under the new time card, which takes effect on June 20th, No. 2, westward bound passenger, will arrive at 9 P. M. and leave at 9:10; No. 4, mail and express, will arrive at 9:10, and leave at 9:35; No. 1, eastward bound passenger, will arrive at 7:35 A. M. and leave at 7:55; No. 3, mail and express, will arrive at 8:30 A. M. and leave at 8:50.

A Nelson, the enterprising free employment office agent, and well-known for his fine cigars, tobacco, pipes and yankee notions, has taken the agency for Dr. Willey's Discovery, the greatest liniment on earth, for rheumatism, colds, catarrh, asthma and bronchial affections. Also a full line of "Diamant" spectacles and eyeglasses. I buy goods as cheaply as anyone in Reno and can therefore defy competition.

Heard From.

The Susanville Advocate contains this: Mr. Winchell, representing the Reno Gazette, called at the Advocate office this morning. By the way, the Gazette has become one of the best papers on the coast, ably edited, and giving full coast dispatches a full twenty-four hours in advance of the city papers.

The prior appropriators of Humboldt river water have employed Attorney-General Alexander and J. H. Macmillan.

The baseball game played yesterday between the Virginia and Gold Hill clubs resulted in a victory for the former; score 15 to 12.

This morning one of J. F. Aitken's ice teams took a run down Commercial Row, but was captured in front of W. O. H. Martin's store.

M. Cooper commenced to-day to rebuild his Pioneer Hotel. It will be of brick and when completed will be a great addition to the town.

Wm. Planiger is the sole licensee of Reno for frosted cream soda. Step into his store and try it. Ice cream, soda water and milk shake all in one.

P. H. Kinney, the Alturas (Idaho) Sheriff who came here for Leander Lee, the man accused of killing a couple of Bannock squaws, left yesterday morning with his man.

Colonel Lyman Bridges, of the United States Geological Survey, passed through Reno on his return from Washington. His field of operations will be along the Truckee river.

The funeral of the late Patrick Bracken took place from the Catholic Church yesterday. Deceased was a member of the A. O. U. W., from which Order his family will receive \$2,000.

PERSONAL.

Mrs. Clara Belle McDonald is at Lake Tahoe.

John Forsyth of Long Valley is in town to-day.

C. A. Jones went below again yesterday morning.

John Mackay came down from the Comstock Saturday evening on his way to the Bay.

Mrs. J. M. Fulton and Mrs. Allen C. Bragg left yesterday for a week's visit to Long Valley.

Colonel Lyman Bridges says that a colony of Eastern settlers are coming here shortly to buy homes.

S. A. Hamlin was down from Essex yesterday. He looks for a prosperous year in the lumber business.

Attorney-General Alexander returned Saturday evening from Winnemucca and went to Carson to-day.

Rev. and Mrs. W. R. Jenvey and children arrived in San Francisco this morning. They will be in Reno next week.

T. R. Hofer and family of Carson, and sister-in-law, Mrs. R. E. Kelley, arrived in San Francisco below this morning.

Editor E. D. Kelley and family of Winnemucca arrived here Saturday evening and to-morrow Mr. Kelly will attend the Grand Lodge of Odd Fellows at Carson.

Sheriff Fellows, Captain Ferd Reid and Joseph Organ of Humboldt county came in this morning on their way to Carson to attend the I. O. O. F. Encampment and Grand Lodge.

Geo. Watt, the Lander county cattle man, came up from below yesterday, accompanied by his wife and daughter. Mr. Watt went to Carson to-day, but will spend to-morrow in Reno.

Mrs. J. Scott Peebles of Portsmouth, Ohio, and John Moore and son of Milwaukee are visiting Mrs. L. W. Lee and sons.

Mrs. James Phelan of Reno and Mrs. William Madden of Virginia City returned from Dutch Flat, Cal., yesterday morning with their invalid mother, who they hope, will be benefited by a change of climate.

S. A. Wheelock and wife of Chicago are visiting Mr. Rice, Mrs. Wheelock's brother, who is in the employ of Folson & Wells. Mr. Wheelock is a commission merchant and is taking a three months' recreating trip.

G. M. Stewart, the commercial ruler, who returned yesterday morning from a trip to Salt Lake, met Messrs. Dixon, Varien, C. P. Mason and other former Nevadans, all of whom wished to be remembered to their sagebrush friends.

Deputy Sheriff Nofsinger of Winnemucca, who went below a few weeks ago with a brother who was suffering from an abscess in his side, returned yesterday morning and reports his brother much improved, the abscess having been successfully removed.

Webber Lake.

R. L. Fulton, C. T. Bender, Dan Wheeler and Johnny Fulton returned last evening from a trip to Webber Lake. They say that there are quite a number of pleasure seekers at that famous resort, and that George Stiles is anticipating a busy season.

HUMBOLDT RIVER WATER.

The Oldest Appropriators Getting Badly Left.

The Winnemucca Silver State of the 14th inst. says: Water Commissioner Marker, who had been up the river studying the water question, went west discouraged last evening.

He says there is no perceptible increase in the volume of water in the river west of Russell & Bradley's ranch near Battle Mountain, though the river was bank full for a while this Spring in Elko county and as far west as Beowawe, but it is almost dry at Iron Point, and not a ranch in this county has been irrigated from the river this year. Though the oldest water rights on the river are in this county, the owners derive no benefit from them, as the water is all appropriated before it reaches this county. If this condition of affairs is permitted to exist, then ranchers in this county, though having the oldest right to the water, will not get any until recent appropriators in the counties east of Humboldt have all they can use. It is probable, however, that the Courts will be called upon in the near future to determine how much water each claimant is entitled to, and to prevent any one from getting more than his share until all have their just proportion.

Yosemite All Right.

In reply to a sensational newspaper's articles charging that the beauty of the Yosemite Valley has been marred, Governor Waterman says: "I'll bet \$100 to a 10-cent piece that no man can go to the valley and point out where its beauty has been marred. The scenery is there, as grand as it ever was, and as for despoiling vegetation, it springs up almost as fast as it is cut down. The hotels are well kept and the charges reasonable. The season thus far has been a bunsy one, and those in the valley are having a jolly time."

The Fourth in Virginia.

Virginia is going to celebrate the Fourth. They had an enthusiastic meeting Saturday night and made all necessary arrangements for a good time. Henry Rolfe was chosen as Grand Marshal. Reno could have celebrated just as well as not, but for the lack of spirit it fell through, and the Fourth in spirit it fell through, and the Fourth in spirit it fell through.

"Ladies" of a Harem.

Abdul Hamid, the reigning Sultan of Turkey, has nothing about his dress but the fez, or Turkish cap, to distinguish him from an ordinary well-dressed European, and the ladies of his harem wear European dresses beneath their outer cloaks, and veils that are so gauzy that they amount to nothing at all.

Attempted Burglary.

About 2 o'clock this morning an effort was made to again burglarize Mrs. Thomas' house, on Third street, but a few pistol shots sent the prowler flying through the alley.

Christian Crusaders.
